Cooperative Ecosystem Studies Units (CESU) are multi-agency partnerships with the Nation's universities and other institutions, organized around biogeographic areas. The CESUs were established to provide research, technical assistance, and education to resource and environmental managers. The **Great Lakes – Northern Forest Cooperative Ecosystem Studies Unit (GLNF CESU)** is one of 17 units in the CESU National Network.

The **Great Lakes – Northern Forest Cooperative Ecosystem Studies Unit (GLNF CESU)** has been operating since 2003 and now consists of a network of faculty and staff from 33 leading academic programs, 9 Federal agencies and 10 natural resource research organizations.

Great Lakes – Northern Forest CESU **Mission Statement**

Adopted 2003

“To conduct a program of research, technical assistance and education that involves the biological, physical, social and cultural sciences needed to address, manage and preserve Great Lakes Northern Forest ecosystems in a rapidly changing social, economic and environmental landscape.”

Functions of the GLNF CESU Host University

The **University of Minnesota** staff oversees the day-to-day operation of the CESU and provides essential support including:

- Facilitating new member applications and amendments to the cooperative agreement
- Developing and maintaining a GLNF CESU website
- Providing GLNF CESU project file updates
- Enhancing collaboration by notifying partners of GLNF CESU funding opportunities and posting notices on website

Becoming a New Great Lakes – Northern Forest CESU Partner

Interested parties are welcome to contact our GLNF CESU director with inquiries. We accept new member applications throughout the year.

New Federal Partner Applications:

Federal agency applicants must be members of the CESU Network Council and signatories on the national CESU Network Federal Agency Memorandum of Understanding. The steps for the federal agency partner application process are:

1. Notify the CESU Network National Coordinator of intent to enroll in a particular CESU.
2. Establish initial contact with the host university CESU director to begin dialog regarding enrollment as a new federal agency partner.
3. Submit a formal letter of interest and application (e.g., no more than 10 pages) to the host university CESU director (see [webpage](#) for specific instructions).

New Non-Federal Partner Applications:

Tribal, state, and local governments, academic institutions, nongovernmental conservation organizations, and other nonfederal organizations are eligible to apply for enrollment. The steps for the nonfederal partner application process are:

1. Establish initial contact with the host university CESU director to begin dialog regarding enrollment as a new partner.
2. Submit a formal letter of interest and application (e.g., no more than 20 pages) to the CESU director (see [webpage](#) for specific instructions).

Review Process:

Following submission of an application for enrollment, the application package is distributed to all existing partner technical representatives for consideration.

University of Minnesota as Host:

The Great Lakes – Northern Forest CESU has been in operation since 2003

The University of Minnesota has served as the host of the GLNF CESU since its inception

- Host duties are renewed every five years.
 - Previous renewal periods
 - 2003 – 2007
 - 2007 – 2011
 - 2012 - present
 - Last Renewal/Expiration Date: August 2, 2012
 - 1st Host Self-Assessment Report was submitted February 1, 2012

Overview of Previous GLNF CESU Activity

2003 – 2007

- \$9 Million in project funding
- Total of 140 projects
- Six new partners were added

2007 – 2011

- \$18 Million in project funding
- Total of 159 projects
- Thirteen new partners were added
- Agencies reported working with 22 of the 39 nonfederal partners
 - Five partners received 61 percent of the funding
 - Michigan State University 18%
 - University of Minnesota 14%
 - Cornell 10%
 - University of Wisconsin-Madison 10%
 - University of Wisconsin-La Crosse 9%
 - Minority serving institutions did not receive funding or be involved in projects

GLNF Project Types and Funding FY 2003-2012

¹ Sums to more than total project funding because some projects classified into more than one type.
